

Manuel Rojo Vivot

UX/UI & Product Designer | Design Systems · Generative AI Prototyping

+54 9 11 4056 1900 · mrivivot@gmail.com · mrivivot.com · linkedin.com/in/mrivivot

PROFILE

UX/UI and Product Designer with 3+ years of end-to-end experience, from research to interaction design and developer handoff. Specialized in critical flows, scalable design systems, and generative AI prototyping (vibe coding) that improve user activation and operational efficiency. Complements hands-on practice with university teaching in UX/UI, reinforcing pedagogical judgment and mentoring skills within product teams.

PROFESSIONAL EXPERIENCE

Gaucha Digital — UX/UI Designer *Sep 2025 – Jun 2026*

- Designed institutional websites for corporate clients through an agency, leading UX audits, requirements gathering, brand redesign, and design system development.
- On GSK projects (Basta de Meningitis, VSR): prototyped with generative AI, analyzed user behavior with Microsoft Clarity (heatmaps, navigation, clicks, time on page), and designed an interactive search tool and questionnaires that improved retention and conversion.
- For Carbón Los Leños: redesigned the landing page, checkout flow, and component system (+15% activation), delivering developer handoff documentation.

Digital House – Universidad de San Andrés — UX/UI Design Professor *Feb 2023 – Present*

- Guided and evaluated 100+ product design projects, designing research, ideation, and prototyping exercises based on real-world cases. NPS above 8.5.

Freelance — Web Design & Development *Jan 2023 – Present*

- Designed and developed institutional websites with HTML, CSS, JavaScript, Bootstrap, Wix, and WordPress for BRVSCU Abogados, Consultoria Grimaux & Asoc., El Chiquero, PlantaHaus, Cirugía Oncológica Integral, Turismo Obligado, and Fronte Garage.

V-Go — UX/UI Designer *Mar 2024 – Oct 2024*

- Launched the seller onboarding system (200+ sign-ups), reducing sales effort by 60%.
- Redesigned the interface, in-store pickup flow (300+ purchases), and post-order rating flow (400+ reviews), testing prototypes with sellers, stores, and customers.

Informetal — UX/UI Researcher *Sep 2023 – Feb 2024*

- Led research for this healthtech startup: interviews, affinity/empathy maps, card sorting, and usability testing with Maze.
- Identified critical friction points through heatmaps and effectiveness metrics; prototyped solutions across fidelity levels, validated ahead of development.

Filadd (YC S21) — Digital Content Producer *Sep 2019 – Jul 2025*

- Produced 5+ digital courses (1,000+ sales) applying content design and UX writing to educational material.

EDUCATION

B.A. and Teaching Certification in Philosophy — Universidad Católica Argentina | 2008 – 2014

UX/UI Design, UX Research & UX Writing — Coderhouse | 2021 – 2022

Web Development — Escuela Da Vinci | 2023

Vibe Coding for UX/UI Designers — Udemy | 2025

Figma UI UX Design Advanced — Udemy | Present

SKILLS

Design & Product: UX/UI Design · UX Research · Information Architecture · Wireframing · Prototyping · Usability Testing · Vibe Coding · Content Design · Accessibility

Collaboration: Stakeholder Management · Developer Handoff · Cross-functional Collaboration with Product & Engineering Teams

Tools: Figma · FigJam · Maze · UXtweak · Microsoft Clarity · Claude · Figma Make · Google AI Studio · Lovable · Stitch

Methodologies: Design Thinking · Product Thinking · Dual Track Agile · Scrum · Kanban · Competitive Benchmarking

LANGUAGES

English (C1) · Spanish (Native)
